Mandrake

Is recognised in the United States as the great vegetable substitute for mercury (see American Dispensatory, page 720.
The first to utilize Mandrake (Podophyllin) and present it to the public in a convenient form, was the well-known Dr Schenck of Philadelphia, whose famous MANDRAKE PILLS, are replacing all other purgative medicines throughout the U. States. They act speedily and efficiently without producing sickness at the stomach, nausea, or griping; arousing the liver to the due performance of its functions and may thus be termed a specific for the many ailments engendered by a torpid or diseased state of this organ, from which so many are suffering in the River Plate.

Phosphatine

It is well-known that no substances act so powerfully as a restorative on the brain and entire system as Phosphates, but the great objection to their use heretofore has been the nausea, heaviness and at times excitability produced by their use.
Professor G L Austin, M.D, Boston, is the first and only one who discovered and formulated Phosphatine, a preparation that produces perfect digestion and tones the entire system, nerve, bone, muscle and tissue—which a diseased body requires.
It may be termed the great 'Brain Strengthener' and no safer, purer, more palatable or more effective preparation has ever been offered to sufferers from mental or physical debility.

FACTS FOR ESTANCIEROS

EUREKA! EUREKA! The richest land in all the United States. The finest Ranche, in Texas.
The best district South of Kansas.
The Pan handle of Texas.
The richest prairie in the Union is able to support **263 cows** per **square** league!

We give to our readers the prospectus of *The Cattle Ranche and Land Company* just started in London, £400,000 to stock an estancia in Texas of 2000 square miles, or say 190 leagues. In calling special attention to this prospectus, we wish to dwell on the fact that this magnificent estancia in the U. States, of 190 leagues of the richest prairie land in all the Union, is able to support about 50,000 head of cattle, which, according to our calculation gives 263 cows per square league!! It is in the presence of such facts that people in this country can discover how immensely richer the lands of La Plata are than in other countries. The worst league of land in the whole of the Plate will support 500 cows, whilst the good land will easily support 4000 cows per league. Thus our good estancia lands are sixteen times as valuable as the very best in Texas.
The following is the Prospectus—

PROSPECTUS

This Company is formed for the purpose of purchasing and carrying on the Cattle Ranche belonging to Rufus Hatch & Co., of New York, with the water right over a range of about 2,000 square miles, and 7,000 head of improved Cattle, 113 Horses. Waggons and a complete Ranche Equipment, the whole payment for which is to be made by this Company in Deferred Shares, the certificates of which Shares are to be deposited with the Trustees, and not given up to Mr Rufus Hatch or his nominees, until 100 per cent. in dividends out of the nett profits of this Company shall have been paid on the present issue of Preferred Shares.
The terms of sale to the Company are quite exceptional, as the Vendor thereby hands over to the Company the whole of his highly valuable property and rights, in consideration of Deferred Shares to be issued to him or his nominees, over which they will have no control until a sum equal to the whole amount of the present issue of Preferred Shares has been paid in dividends, upon those Shares, out of the nett profits of the Company. The Vendor's sole object is to raise Capital for the full development of the undertaking.
No stronger evidence than this could be furnished of the absolute faith which the vendors have in the success of the undertaking.
The range attached to the Ranche is in one of the best districts, being in the Federal Lands, south of Kansas, and north of the Panhandle of Texas, a suitable distance from a railway, far enough south to escape long or severe winters, and yet temperate enough to have well bred cattle, and is adjacent to that occupied by 'The Prairie Cattle Company, Limited,' formed by the late Earl of Airlie. It is ninety miles from Dodge City, Kansas, upon the Atchison, Topeka, and Sta Fe Railroad, and very conveniently situated for markets.
The lands occupied, over which the rights are acquired by this Company, will carry about 50,000 head of Cattle, and the proceeds of the present issue of Preferred Shares will be chiefly applied to the purchase of Cattle, so that the herd may be of a size commensurate with the extent of the Range. It is intended ultimately to purchase the fee simple of the water courses and contiguous lands.
The Prairie Cattle Company, Limited, which has its Head Office in Edinburgh, was established in December, 1880. The nett profits on its first ten months trading were equal to 26 per cent. per annum, which was divided as Dividend and Bonus, declared and paid December, 1881, and that Company has increased its Capital from £200,000 to £500,000. Their Shares are selling at a very large premium.
The Ranche now purchased from Mr Rufus Hatch, yielded a nett profit of £6,000 for the year ending last October, while the herd had increased 30 per cent in value, and it may be fairly estimated that there will be a nett profit next November available for Dividend of over £10,000.
During the last few years this description of business has assumed extensive proportions in the Western States and territories of America, and has yielded very large profits although chiefly carried on by persons of limited means, and therefore under many disadvantages. The ordinary profits have been from 25 to 40 per cent. per annum, and under more favourable conditions have exceeded 50 per cent Such profits are not surprising when it is kept in view that to raise a three-year-old steer, worth from $25 to $30 costs only from $6 to $10.
Mr Clare Read and Mr Albert Pell, M.P., the English Commissioners on the Agricultural Resources of the Western States of America, state in their report to Parliament in 1880, that the cost of raising a bullock worth from $25 to $30 cannot be more than $10, and it is generally acknowledged that the average profit of the stock-owner has been for years fully 33 per cent.
The Special Correspondent of the *Times*, in a letter which appeared on the 29th December last, says:—"Ranchemen West and South of the Missouri, allowing for capital invested, expenses of herding and losses, estimate that their cattle cost them 8s. per annum. Allowing the extravagant figure of half a dollar for driving from the ranche to the railroad, and adding besides 50 per cent profit, a three year-old bullock could thus be delivered at Julesburg, Cheyenne, or Glendive for 40s." And again in the same letter, "The best informed cattle breeders and shippers believe that the cost of rearing and feeding cattle, sheep, and hogs will not for years be materially increased, and that competition will prevent any increase in the present moderate transport charges."
This testimony is entirely confirmed by the information which has since been laid before the Directors from what they consider competent and reliable sources. The business, moreover, is certain to improve with the growth of population and the increased facilities which are now in course of development for bringing meat and cattle

to this country; and it is recognized that there will be special advantage in carrying it on upon a large scale which this Company will be able to do.

After satisfactory results have been shown, the example of the Prairie Company will be followed by increasing the capital and extending the business of the Company. In future issues of shares existing shareholders will have the priority of allotment at par.

The American Directors, whose position and well-known characters must inspire the fullest confidence, have applied for a considerable amount of the Preferred Shares now offered.

The Preferred Shares are entitled to a cumulative dividend of 10 per cent, per annum, before any payment upon the Deferred Shares. The Deferred Shares will then receive 10 per cent., and the balance of nett profit will then be divided in equal moieties between the Preferred and Deferred Shares.

Mr. Earl W. Spencer and Mr. J. John Drew the Managers at the Ranche, whose services have been secured by the Company, are most experienced men, and have been very successful; and the Directors propose to send out a throughly competent Inspector each year from England, so that the most complete system of control may exist.

Mr Frank Paton, of Montrose, Scotland, who is a practical Stockman, resided in the neighbourhood of the Ranche acquired by this Company in 1877 and 1878, and again visited the district last June. He has expressed his opinion as to the Lands belonging to the Ranche being eminently suitable, and that the estimates of profit which have been submitted to the Directors, and which are mentioned is this Prospectus are moderate and reasonable.

The Directors have arranged with Mr Paton as Inspector of the Company, to visit the Ranche and to remain there during the coming season. He will arrive there next month, and will be accompanied by one of the Directors, Mr John Clay, Jun., who has been for three years in Canada and America occupied in cattle breeding; and as a Sub-Commissioner and colleague, accompanied Mr Clare Read and Mr Pell, M.P., on their official visit to America, and furnished a report on American Cattle Breeding, Mr W Falconer, another of the Directors, will also visit the Ranche in June next, in order to become practically acquainted with the working of the business.

ALBUM FOR PRESIDENT ROCA

We have been favoured with the following documents, inreference to the Album about to be presented to the President of the Republic. None will challenge a single line of the eloquent Dedication drawn up by Mr. Calvo:—

Popular Album Committee,
B. Aires, March 20, 1882.

To Dn. N. Calvo,
Member of the Committee
to present an Album to the
President of the Republic.

Sir,

I have the honour to inform you that the Committee of which I am President has entrusted to you the text of the Dedication to be inscribed at the head of the bound lists of subscribers to the Album, and which will be signed by all who approve of our idea.

Believing that you will place your talents and patriotism at our service in this matter,

We are,
Your obedient servants,
Carlos A. Rodriguez,
D. O. Mayano (Sec.)

B. Aires, April 4, 1882.

To Dn. C. A. Rodriguez,
President of Album Committee.

Sir,

I send you enclosed the Dedication for the Album for the President of the Republic, the drawing up of which your Committee did me the honour to entrust to me.

I beg you to thank the Committee on my part for the distinction,

And remain,
Your faithful servant,
N. A. Calvo.

To the President of the Argentine Republic, Brigadier General Dn. Julio A. Roca.

Sir,

Events, as they succeed each other, are but strengthening the confidence of the Argentine People in him they have raised above the rest for a legal period, to direct their destinies.

But a short time has elapsed, Sir, since, with the Good Genius of our Country pointing the way, you threw open all the vast and fertile Argentine Pampa to Civilization, Capital, Labour and Modern Progress. For the first time, the powerful echo of Argentine Nationality reverberates in its remotest wilds, as permanent possession of the fertile soil is secured, and free and happy settlements—the nucleus of new Argentine provinces in times to come—spring up and fling to the breeze the glorious flag under whose folds Y.E. has re-established the integrity of Argentine territory and the constitutional rights of its people, relegating to merited oblivion our insane and sanguinary civil broils, to initiate over their tomb the fecund era of true Liberty, stability and order, and the object of this spontaneous offering from your fellow-citizens is to celebrate the advent of these blessings.

The conquest of the Desert and its gradual colonization and territorial organization; the honourable peace with Chile and the blessings to be derived from it; the selection of a permanent Capital for the Republic, thus crowning our Nationality; our railways that devour distance, and the credit that enables us to build them at par; our telegraph lines from the Andes to the Atlantic, and from the Straits to Bolivia; the public confidence in the magnanimity and prudence of our Chief Ruler, who has not proscribed a single citizen, nor put a single family in mourning, nor shed a drop of blood, or caused a tear to flow for political ends—all these, Sir, are our guarantees and your titles to the respect, affection and gratitude of all your countrymen.

A grateful country pays posthumous honours to its illustrious sons, when Posterity gives effect to the calm verdict of History, from which there is no appeal. We, Sir, merely anticipate the certain verdict of the future, and, perhaps, contribute to shape it, in presenting to you this modest album, signing it, as ocular witnesses for Posterity, of your great deeds; and this we do, Sir, with the most profound conviction that you will, to the very end, fulfil the hopes you gave rise to in the beginning.

The political change Y.E. has initiated in closing with an iron hand the reign of disturbance and anarchy, and inaugurating that of order, prosperity, peace and National glory, has the unanimous and enthusiastic approbation of the whole Argentine People, and in endorsing it, all who sign this album, Sir, believe they are but fulfilling a solemn public duty, and laying the granite pedestal on which, one day, will be erected a statue of Y.E., crowned with the olive of Peace and the laurel of Victory.

EDITOR'S TABLE.

The Cordillera's mails were delivered yesterday morning, but as we gave the marrow of the news in yesterday's issue, and the papers are but little later than those by the Senegale, we give the 'pas' in our Supplement to-day to the Report of the British Hospital, an institution we all take so keen an interest in.

The news from Ireland is stunning. Gladstone is going to give Erin not only one 'Home Rule' Parliament, but four of them, one for each province, so runs the 'report. We greatly fear that this handful of parliaments will provoke a 'Timeo Danaos' cry in Ireland. However, time will tell. Meanwhile the Town Hall of Athlone has been blown sky-high with dynamite, a truly terrible affair that can do no good to anybody. The next most important news is that Austria and Russia are getting on more distant terms daily. A sad item is the intelligence that the collision in which the Douro perished took place not in a fog or snow storm, as at first asserted, but on a clear night, which shows that there must have been negligence on either side, and it is most improbable that it was on that of the Royal Mail steamer. The Board of Trade enquiry will tell all. The Jingoes have, apparently, won the fight over the Channel Tunnel, as the telegram says the British Government has given orders to stop the works on its side. This is probably owing more to some impediment found as the works advanced rather than to the outcry of those

that under Indian skies,

The Pedagogues have wisely saved the Government the trouble of 'shutting them up' on the religious question which threatened to set them all by the ears. At Tuesday's sitting they resolved to let the ticklish topic drop for good. Right you are, gentlemen.

There was a case of vitriol throwing in Calle Venezuela on Wednesday, by a Spanish ruffian named Calvo, who threw a bottle full in the face of a young countrywoman of his who had refused his amorous addresses. Two women who interfered to save the victim were also severely burned. The miscreant managed to escape.

The Indians again. Mr Carreras, the surveyor, has had all his horses carried away, at Ostrich Mountains, on the Rio Negro. Thirty savages swept down on his party of 40 men, but as the latter had no ammunition for their Remingtons, the savages had it all their own way. It is quite clear that the military service on the frontier is as bad or worse than ever.

No language is too streng to condemn the weather yesterday. It was cold, it was damp, it was dull, it was disagreeable in every way, in fact too utterly utter in the wrong direction.

The Electric Light men, in despair of getting hold of our streets, have now fallen back on a proposal to try their hands on all the light houses. There is such an enormous number of light houses on the coast that the electricians will make a colossal fortune out of the job—if they get it.

On Wednesday night the beautiful opera of 'Aida' was performed for the first time this season, and perhaps for the first time at Colon, the two first acts were barbarously murdered. The contralto, Rebelli was quite unequal to the task allotted her, and sang out of tune throughout those two acts. The chorusses, generally so good, were all out of time, which created great disappointment amongst those 'habitués' who understand something about it. The third act opens with a beautiful cavatina, sung by La Borghi-Mamo in her usual artistic style, and was frequently interrupted by the applause from all parts of the house, which she so lrichly deserved. After that comes that celebrated duet, in which Batistini distinguished himself, singing his best. When once this favourite barytone is heard in London or Paris they will never let him go again. I do not think there has been his equal here. Then comes the grand trio, Borghi-Mamo, Tamagno and Batistini, which was the great musical treat of the evening, being sung to perfection. These artists were called three times to the footlights at the conclusion of that act, and a monster bouquet was presented to the prima donna. The house was crowded, as usual, and, no doubt, will be again to-night, in the hope of finding a vast improvement in the execution of the first part of this favorite opera, for which there is ample room.

The Old Stager.

Let no man, woman, or child who wishes to remain above ground touch fish, even with a forty-feet pole, till something is done about the Riachuelo. The news we gave yesterday about this filthy stream made fish eaters very wary at dinner. Better trichinised bacon than fish from the Riachuelo.

The report about a camp Juez de Paz being in jail for stealing Dr Irigoyen's cows is all nonsense, but the affair shows that even a camp newspaper can raise a very respectable 'bola' when it sets its whole mind to it.

The Government has answered 'not a copper!' ('no hay lugar!') to a petition for a little pecuniary assistance for the Tapiales colony in San Luis.

The latest New York papers to hand say that the Panama Canal Company is running short of both money and credit and stopping work everywhere.

We received yesterday a beautifully illuminated 'carte' with the list of dishes, and their prices, to be had at the famous 'Rotisserie Francaise' of M. Charpentier, corner of Florida and Cuyo. Lucullus himself could pick a dinner to satisfy him out of this 'carte,' which is also a veritable work of art, done at the new lithographic establishment of Messrs. Stiller and Laass, who have turned the old Standard Court into a veritable palace well worth a visit. Their work is most beautiful.

The following snip from an exchange may please our lady readers:—

"Madame de Rute, nèe Bonaparte-Wyse, better known as Madame Rattazzi, still defies time, and astonished the Madrileños the other night by appearing at a ball in an ivory-satin dress embroidered with a 'hunt' of the date of Philip II.—horses, dogs and hunters—the whole reproduced in natural colours with the most costly silk needlework and artistic design."

It appears that the Montevidean Government refuses to reopen the Volpi business here with Baron Cova, but will arrange everything direct with the Foreign Office at Rome.

The police are going to the fair. The other day a man was arrested for carrying a 'bulto' tied with red tape, after forbidden hours. The 'bulto' was about the size of a couple of briefs for a lawyer in a good fat lawsuit.

The Derwent's passengers had a miserable day for a start. Nevertheless, there was a big crowd of friends to see them off, and some went out with them to the steamer, in spite of the weather looking to a landsman's eye what sailors call dirty.

We cut the following from the London *World*, as one member of the family is well known and highly esteemed in Buenos Aires:—A remarkable family gathering took place lately at Courtfield (Ross), the ancestral seat of the old Catholic Vaughans, to bless a domestic chapel. Three uncles of the 'Squire' Bishop Vaughan of Plymouth, and Fathers Edmund and Richard Vaughan, of the Society of Jesus, represented the last generation; while Herbert, Bishop of Salford; Jerome, Benedictine Prior of Fort Augustus, and two junior religious, all brothers, testified that the ecclesiastical tradition of the Vaughans is being maintained in the present one. Two other brothers of Squire Vaughan were necessarily absent—Bede, Archbishop of Sydney, and Basil, a wandering missionary in the South American forests.

We solemnly call on the Government to at once quadruple the salaries of all the Judges on the Bench, as the unfortunate men (to say nothing of their families) must be starving on their present salaries, at least if the appetites of the Federal Court Judges be any criterion by which to judge. Some short time ago the five Judges of the Supreme Federal Court were asked to breakfast on board the iron-clad Admiral Brown. They accepted, and the mind recoils aghast at all they eat, or all they were expected to eat, at least all the National Government had to pay for. Here is the 'menu':

2 Belfast hams
2 dozen pots preserves
24 lbs, picked spices
1 case of 'bacalao'
1 barrel of olives
1 Dutch cheese
1 Pate-gras do
1 Parmesan do
2 cases of fideos
2 arrobas of olive oil
2 lbs. of mushrooms
10 lbs, butter
24 lbs. of dried dulces
48 pots of jam
2 casses of Port wine
1 do Sherry
2 do Champagne
2 do Cognac
3 do Claret
2 bordalesas of Vin ordinaire!!
2 cases of beer
5 lbs of Sundries

Such a breakfast for five elderly gentlemen inspires both awe and admiration of their appetite. The quantity of olive oil, fideos and cheese devoured is a caution. And two pounds of butter per Judge! We cast a charitable veil over the fact that the Republic's Judges can even look at 'bacalao', much less eat a case of it for breakfast, between five of them. The least said about the consumption of liquids the better. We rejoice that the Judges have survived that breakfast.

In political circles yesterday it was considered probable that the National Minister of Finance and the Minister of War will both resign very shortly.

The Provincial Senate did nothing yesterday about the new Capital Question. Public opinion is daily rising against this monstrous project, and the tax-payers are now fairly alarmed.

There is a grand concert at the Exhibitioneto-night.

The guns heard yesterday morning were from the Battery, in answer to the salute of the Brazilian corvette Paranahyba, fired on Wednesday! Better late than never.

This conference which shall take place in Washington or any other important city of the United States, will have the object to dissolve friendly all pending questions, arbitrate ways to escape European interference which is taking every day greater proportions in everything that effects purely American interests, foment political and commercial relations between North- and South American countries which by want of communication, or other motives have hitherto lived in nearly complete ignorance of each other.

The project has numerous supporters in both Chambers.

National Bank Shares	110

This was another exciting day on Change, and although we cannot say there is a panic in the market, nevertheless the floor of the old Bolsa shakes, and Kings and gutternipes tremble. Spite of large purchases by some of the strongest brokers, spite of outsiders offering to buy small lots cash, spite of heavy sums secured to carry the stock, the National Bank share market did not improve, and at one time looked as if about to dip lower. The price for end of month compared with price for end of May shows clearly that there is a pressure of stock on the Bolsa for the end of this month. All sorts of stories are current amongst the brokers about the split syndicate, they even said that two of the members are about to fight a duel, but the game holds, and the losses and gains are tremendous. Shares opened cash at 109⅝ and closed at 110, only 210 sold. For the end of the month there was an unusually heavy business, 10,650 shares sold, opening at 110 and closing at 109⅝. For May prices tumbled more than for this month, opening at 111¼, rising to 112 and closing at 111½. Total day's sales 14010 shares.

Series E dropped off to-day, opening at 84½ and closing at 84.

The Exchange reported yesterday at 49⅛ was £16,000 on terms, brokers insist that there are plenty of first class drawers at 49⅛, a large amount of exchange was done for Derwent mails.

Mr J P Smythies of Canada Gomez was welcomed, he leaves to-morrow in Kepler for England.

There was a regular levee at President Roca's private house this morning. The General spoke far more of his trip to Formosa and the colonies than of his experiences in Corrientes. Immense good will result from this trip of the President who has had his eyes opened to the utter neglect of the country, and the superhuman exertion of the neglected colonists. The Resistencia colony has 20 leagues poblado and under agriculture, but the delay about measuring the lands for the colonists is such that the greatest discontent exists. President Roca has returned to town determined to devote all his energies to help and foment the colonies; "give me an army of agrimensores", he says, "and I will scatter them over those inexhaustibly rich lands along the Parana in the Chaco, and remove the opprobrium that there is no land in this country for immigrants." There is land, the General says, for the whole population of Europe, yet it is so wretchedly mismanaged that even the people in Corrientes who want to buy on the opposite river bank in the Chaco cuertes of estancia whereon to put their cattle can't even with the money ready to pay for same get it. General Roca thinks that Formosa is destined to be a very important thriving place, and might be made the Capital of that district of the Chaco lying between Vermejo and Pilcomayo, whilst Resistencia might be made the Capital of the country between the Rey and Vermejo. Parana he says, is greatly improving, owing to the authorities having given the whole 'ejido' of the town to the colonists; the Municipal lands of Parana are now all smiling chacras and no more to be had, but the adjoining lands belonging to private parties are being cut up and given to colonists to such an extent that the whole district is being rapidly colonised. General Roca saw on Sunday morning the Parana colonists returning from church, and he says, it was a truly splendid sight; a long wide road leading from the town covered with people, all afoot, all neatly dressed, and all Europeans. Sta. Fe is the antipodes of Parana, a regular sleepy hollow the town, but once a few leagues out from the town of Santa Fe he found himself in a different atmosphere, all again Europeans, and all industrious. Congress this session will probably hear more about lands and colonies than ever before since it first assembled. The sail up the Parana in the Maipu for so many days through the most fertile country in the world, and yet not a soul to be seen on its banks, not a habitation all in its primeval loneliness, made a great impression on the President, who admits that the country is fast asleep and must at last be woke up. The President spoke with the colonists and saw everything for himself; he learned all about the inside lands of the Chaco from colonists who had been up the rivers and arroyos, and has brought down with him data about these lands and these colonies which will prove most invaluable for his Cabinet. From what we know of President Roca we augur the happiest results from this trip up the river; it will lead to a reform in the most useful and yet most neglected branch of administration, and rid us of the nuisance of hearing poor people arrive out from Europe saying that there is no land to be had, and they must go back as they came.

We understand that there is every probability that the Bank Board will pass the measure proposing the payment of gold vencimientos in paper; the scheme has been introduced by one of the most influential of the Directors, and the one of all others who, perhaps, best understands the market.

The sales at the ring were as follows:—

Cedulas—

For May 31st 3,150 shares 111¼-⅜-112-111½ to 111½-⅝

Sales, 14,010.

At the Municipality to-day the bids for posting avisos in the streets were opened and as follows:—

Quiroga	900 m/c	per month.
Rodriguez	3,000	do
Justiniano	2,000	do
Corlet	2,620	do

The Rodriguez bid was accepted; this business gives the Municipality now 36,000 m/c per annum against 11,000 m/c last year. It rains money on the Municipality, yet the coupons of its Bonds are unpaid.

We call notice to Mr Thompson's advertisement in another column about the changing of the Central Argentine Shares into stock; a most important business.

Mr John Leared, of the Banco Oriental, was welcomed on 'Change; he leaves for the far South.

Telegrams from the South report the Indians having swept off the Government surveyor's horses, and we are not sure if the agrimensor escaped. The War Office sleeps.

There was another exciting scene on Change at afterhours, and the Roumanian King floored the whole Bolsa by selling slap, bang some 12 to 14,000 shares at from 9⅛ to 8, average price say 8⅜. The brokers were fairly petrified at his pluck, yet strange to say there was no panic in the market. Had the business been done at the ring there would certainly have been a panic, but shut up in the liquidation room the brokers had it all to themselves. Yet the floor of the room shook; the real wonder is that prices did not fall more, which proves the strength of the market. In other times this tremendous operation would have brought the shares to par, but at 8 several people who rarely touch the stock bought. The King would only sell in large lots, refusing anything less than 200 shares, but the bulk of the sales was in lots of 500 shares. Around the liquidation room there was such a crowd, and the uproar inside was so great, that it was difficult to find out what was going on.

The English Bank of the River Plate lowered its drawing rate of exchange to-day to 49⅛, but the brokers report plenty of drawers at 4⅜, Paris 5·19, and Antwerp 5.20.

Brokers report no house coal in the market. Mr Forrester's vessel, the Hellespont, discharging, but all sold, as also 3 or 4 other cargoes coming to him.

The news from the Boca is that merchandize landed at the Boca will have to be sent to the Lanus deposits, to be revised, this seems hardly possible, owing to the great expense.

In some parts of Santa Fe the cattle disease has been so bad that on one English estancia they lost 800 head, whilst on the next land they lost nothing.

A new stock has these latter days made its appearance in the market, and seems to be rather looked for by wide-awake investors. We refer to the new 5 per cent Bonds, issued by the National Government to pay off some old debts, amounting it seems to about 1,000,000 pats. The above stock gives 1½ per cent interest quarterly and will be redeemed by drawings at par, likewise every 3 months, an accumulative sinking fund of 1 per cent being provided for this object. The quotations so far does not exceed 66·67 per cent, making the interest equivalent to 7½ per cent, whereas Cedulas Serie E, giving but 6 per cent and likewise redeemable at par, sell currently at 85! It is clear from this that the 5 per cent Argentine mentioned are far too cheap and well worth buying, being by all means worth at least as much as Series E. with which they will compare.

Another estancia purchase by one of our money brokers. Mr Gowland sold the Bahia Blanca estancia 1½ league prime land within a league of the town for $201,000 per league, 6 years to pay; Mr L. Danecke, buyer. We congratulate him on his bargain.

In hides nothing doing, exporters report no stock.

It is estimated that at afterhours some 17,000 Nat. Bank Shares were sold.

Discount brokers very busy all day; we hear of one business of 200,000 pats arranged at 1½.

The embargo against the Tatay excites some interest in shipping circles. It will be remembered that, in 1879, the National Government gave permission for guano to be taken from Monte Leon by a firm in this city, which sent the famous Devonshire (so near getting us into a mess with Chile) to load the stuff. The seizure of the Devonshire by the Chilians caused serious loss to the firm, as the works had to be abandoned only two men remaining to look after the plant &c. The two men left the place and went to Santa Cruz, to await orders from here. About the same time some Montevidean speculators chartered the Tatay and sent her to load on the sly, the guano prepared by the owners of the Devonshire, then in the hands of the Chilians. The Tatay loaded all the guano she could find. The Sub-Delegate at Santa Cruz went across to stop the plunder, but as he had not a sufficient force with him, he was laughed at, The Tatay cleared with her cargo for England, and, from one cause or other, the claims and protests made there fell through; meanwhile the holders of the concession petitioned the Argentine Minister of Foreign Affairs in the matter, and the case is still under his consideration. The Tatay recently returned here, her commander thinking that, after a lapse of three years, the affair was forgotten. He erred. The owners of the Devonshire had their eyes open, and the Port Captain has embargoed the Tatay, it looks as if she will have to pay for her escapade.

Herapath's Railway Journal gives the following:—

"Central Uruguay Railway,—There is no foreign railway whose shares have so much advanced in market value as those of the Central Uruguay, and we are not surprised. The traffic increases largely, the management of the line is excellent, and, unless we mistake, the property has reached the level of 6 c/o dividends. It is true the country is not in a satisfactory condition, but if the line can improve as it has done in the teeth of that condition, what will it do when Uruguay becomes prosperous? We have often shown how much the dividends of the line have increased in late years, and we expect the one soon to be announced will be highly satisfactory, while the traffic for this year, 1882, has progressed as follows:—

Jan. 3rd to 21st.	£	Miles.
1882	10,934	150
1881	9,082	150
1880	8,296	150

In an interesting correspondence from Brazil published in the New York papers we find the following important statistics of the Brazilian trade:—

"Pine—

"The receipts at Rio show an increase over the preceding year in all qualities except spruce pine. The measurements of the several qualities received are as follows:—

	1881.	1880.
Pitch pine feet	8,163,490	7,544,991
White pine do	3,924,146	3,050,227
Spruce pine do	1,356,834	1,644,391
Swedish pine, doz.	14,544	

Of these quantities received during the past year, the U. States furnished all the pitch and white pine and 379,828 feet of the spruce pine, the remainder of the latter coming from Canada.

"Coal—

"The receipts of coal during the year amounted to 224,551 tons, against 201,567 tons in 1880. Of coke, the receipts last year were 1,264 tons, against 1,821 tons the year previous. The bulk of these receipts are of course from England, the only other receipts last year being 500 tons from New York, 292 tons from Hamburg and 82 tons from Havre. Cardiff alone supplied 151,180 tons out of the quantity received. Nothing as yet has been done with the several mines of coal discovered in Brazil, owing principally to its low grade.

"Of the other imports, the following are the principal ones of which statistics have been kept, and even these lack the totals for 1880:—

	1881.	1880.
Kerosene, cases	260,645	167,250
Turpentines, do	4,338	3,650
Lard, kegs	75,386	96,690

Cement, do	57,500	94,347

BRITISH HOSPITAL.

The Committee of Management for the year 1881 have the pleasure to submit to those interested in the British Hospital the following

REPORT.

At the last annual General Meeting held on the 29th April, 1881, the following gentlemen were elected to fill the vacancies in the committee, viz.:—Messrs R. E. Moore, W. C. Huxtable and R. Inglis Runciman, while Messrs. S. Carlisle, R. J. Neild and R Ramsay were named Suplentes, the next turn being H. R. Rodger.

The general working of the Institution has been more satisfactory than the previous year, and economy has been practised wherever practicable with regard to efficiency; although the subscribers will notice on referring to the accounts that the committee have again had to struggle with difficulties attendant on the dilapidated state of the building and the inconvenient distribution of the various departments.

The patients under treatment during the year were 767, of which 705 were admitted, 29 having remained over from 1880; of these 364 were in and 341 were out-patients, thus showing an increase of 128 over 1880. Of the patients treated, 642 were cured, 50 were relieved 12 died and 63 remained in the Hospital on the 31st December. The rate of mortality has been 1.56 per cent, if taking into consideration the total number of patients both in and out, or 2.84 p. cent if based on the number of in-patients only, which is the smallest death-rate of any hospital in this city during the past year, a fact which the subscribers should be proud of, while it speaks highly for the care and efficiency of the medical staff.

The cost of the management has been $374,641 against $356,305 m/c, in 1880; this increase is accounted fos in repairs to the building, wages and petty charges, whereas, notwithstanding the increased number of in-patients, the accounts for provisions, furniture and bedding have been less. The repairs have amounted to no less than $57,604, of which only $24,699 appears in the general account, the balance representing extraordinary repairs having been charged to the special reserve fund, which latter now stands at $130,333.

The income of the institution, although somewhat higher than in 1880, still falls short of many previous years and made up as follows:

	$m/c
Subscriptions and Donations	146,212
Fees from patients	158,773
Shipping dues	75,529
Benefits (Balance)	5,552
Total	386,066

Whereas in 1880 the receipts were—

	$m/c
Subscriptions and Donations	171,825
Fees from patients	147,442
Shipping dues	50,672
Total	369,939

It is to be regretted that the committee's hopes regarding increased subscriptions have not been realized, as instead of an increase there has been a serious decrease, notwithstanding the efforts made to induce our countrymen to interest themselves further in the institution and the committee takes this opportunity of again appealing to the liberality and charity of the English-speaking community.

With the object of raising funds for re-building the Hospital on the present or other site, a course which had been recommended by many previous committees, the present one has decided on organising a fancy bazaar, and has issued, to this end, a circular to our friends and well wishers, asking their co-operation and support. The committee hopes that a generous response will be made to this appeal, which will enable it to hold the bazaar.

With regard to the building material on the property at Caballito, the sale of which you authorized at the last annual meeting, the Committee has to report that it was sold for the sum of $15.000, but that owing to heavy rains immediately after the sale the purchaser was unable to remove it, the roads being impassable, so the sale was cancelled.

The nursing in the Institution has been carried on by females engaged in this country, who although less efficient than the trained nurses brought from England, do the work satisfactorily, and save the risk and expense of bringing others out.

A discussion having arisen regarding the right of private paying patients to have their own medical attendant, the subscribers were called to an extraordinary general meeting, when it was decided that such patients, on signifiing their wish when entering the Hospital, should be entitled to have the advice of their own doctor, provided he was duly passed here and held an English or American diploma, in consultation with the Resident Medical Officer.

By the departure from B. Ayres of Mr Ronald Bridgett, the British Hospital loses one of its best friends. Mr Bridgett has for many years taken an active part in the management of the Hospital, both privately and in an official capacity, as acting Consul of H.B.M., and the Committee of Management is pleased to avail of this opportunity in order to place on record the valuable services rendered by him to the Institution. In everything that concerned the welfare of the Hospital and its inmates, Mr Bridgett took a warme interest, and your Committee well knows that in according a most hearty vote of thanks and wishing him every success and happiness in his future career, it is expressing the feelings of the supporters of the British Hospital. On leaving these shores, Mr Bridgett has given the Hospital a practical proof of his lively interest in its welfare by making it a munificent donation of $5,000 m/c.

The Committee beg to tender its thanks to Messrs S Carlisle, for flowers, Milligan and Williamson for calico and a case of stout, J C Thompson and Co. for tobacco and cigars, George Cooper and Mrs Mallet for empty bottles, Lieut. Dyke for White Ensign, Messrs R E Moore for plum pudding and 'London Society', the New Gas Co. for tar and ashes, J O Hall for tea and crutches, Schwartz and Co. for work done, J Rich for 'Spectator', T C Clark, E W White, N Bouwer for old clothes, V Caldwell, J A Dowse, G Cooper, D Methven and Mrs Krabbe for illustrated papers, a lady from Moron for 'Sunday at Home', Incognito for newspapers, and several anonymous donors of wearing apparel, as also to Mr Martin for organizing, and the several ladies and gentlemen for acting the Amateur Dramatic Performance of 'School' on the 20th of April last.

The Committee also thanks the clergymen of the various denominations for their services on the Committee, and for their constant visits to the Hospital; Messrs Mulhall and Lowe for the free supply of, and publication of advertisements in the *Standard* and *Herald* newspapers; the Resident Medical Officer for his constant attendance, and the visiting Medical Officers for attendance and advice.

The following statistics show the class of patients treated during 1881, compared with 1880:—

The following gentlemen retire by rotation from the committee, whose places have to be filled up by election, viz;

Messrs R Bridgett, N Bouwer, E H Salisbury and E Casey. In addition to the ordinary Suplentes, 2 extra ones will have to be named to fill the places of Messrs Runciman and Rodger, who are shortly leaving for Europe.

HOWARD'S CELEBRATED PLOUGHS

The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 13th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ESTABLISHED 1799.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*
